

Olympiad Test Paper — Sanskrit (Class 7) — Paper 3

Chapter 15: धातुरूपाणि (Dhatu-Rupani: Verb Conjugations)

Paper 3 — (progressively harder)

Subject	Sanskrit (NCERT Class 7, Deepakam)
Chapter	15 — धातुरूपाणि (Dhatu-Rupani: Verb Conjugations)
Total Questions	60 (Multiple Choice, single correct)
Maximum Marks	240
Suggested Time	90 minutes

Marking scheme: +4 for each correct answer · -1 for each wrong answer · 0 if unattempted.

Instructions: Each question has four options (A), (B), (C), (D); exactly one is correct. Classic traps: लट् is PRESENT not past; parasmaipada -ति vs atmanepada -ते; Sanskrit persons are REVERSED (प्रथमपुरुष = English THIRD); the verb must AGREE with its subject in person AND number; कृ alternates a strong stem (करो-) with a weak stem (कुरु-/कुर्व-); and the अ- of अकरोत् is the past-tense augment, never the negative prefix. Do not write on this paper — mark answers on your answer sheet.

1. A student lists four words: पठति, पठनम्, पठितुम्, पठ्. Which one is the धातु (the verb ROOT) from which the other three are built)?

- (A) पठति (B) पठनम्
(C) पठितुम् (D) पठ्

2. Four roots are tabled in the appendix with their meanings. Which pairing is the ODD ONE OUT because its meaning is wrong?

- (A) श्रु = 'to do' (B) पठ् = 'to read'
(C) अस् = 'to be' (D) भाष् = 'to speak'

3. Which of these is NOT one of the eight roots the appendix tables (पठ्, अस्, कृ, श्रु, दा, ज्ञा, क्री, भाष्)?

- (A) दा ('to give') (B) गम् ('to go')
(C) ज्ञा ('to know') (D) क्री ('to buy')

4. From which धातु could the present form भाषते possibly NOT come, given the meanings taught?

(A) भाष् ('to speak')

(B) none — भाषते always comes from भाष्

(C) ज्ञा ('to know')

(D) any root ending in भ

5. A pupil knows the root दा ('to give') and the root ज्ञा ('to know'). What does knowing a धातु actually let the pupil do?

(A) build that root's many tense and person forms by conjugation

(B) decline the root through the seven noun cases

(C) count the syllables of every word in a sentence

(D) convert the verb into an adjective without changing meaning

6. Two forms are shown: पठति and शृणोति. They share the same ending -ति. What does that shared ending tell you they have in common?

(A) both are 3rd-singular present, parasmaipada

(B) both come from the same root

(C) both are in the past tense

(D) both are first-person (English 'I') forms

7. The appendix conjugates its roots chiefly in लट्-लकार. A student writes 'पठति = he read (yesterday)'. The translation is wrong because लट् expresses:

(A) the imperfect past — 'he read'

(B) the simple future — 'he will read'

(C) a command — 'let him read'

(D) the present (वर्तमानकाल) — 'he reads', happening now

8. Match the lakara to its time-value: which row is CORRECT?

(A) लट् = past, लङ् = present, लृट् = future (B) लट् = future, लङ् = past, लृट् = present

(C) लट् = present, लङ् = future, लृट् = past (D) लट् = present, लङ् = past, लृट् = future

9. अपठत् and पठिष्यति are both forms of पठ्. Which lakara does EACH belong to, respectively?

(A) अपठत् = लङ् (past); पठिष्यति = लृट् (future) (B) अपठत् = लृट् (future); पठिष्यति = लङ् (past)

(C) both are लट् (present)

(D) अपठत् = लोट् (imperative); पठिष्यति = लट् (present)

10. How many लकाराः (tense-moods) does the Sanskrit verb system have in total, of which लट् is just one?

(A) seven

(B) ten

(C) three

(D) eight

11. लोट्-लकार and विधिलिङ्-लकार express, respectively:

(A) the present and the past

(B) the future and the present

(C) the imperative (command) and the optative (should/may)

(D) the optative and the imperative (the other way round)

12. Place these four forms of कृ on a timeline from past to future: करिष्यति, करोति, अकरोत्. The correct ordering (earliest time first) is:

(A) करोति → अकरोत् → करिष्यति

(B) अकरोत् (past) → करोति (present) → करिष्यति (future)

(C) करिष्यति → करोति → अकरोत्

(D) अकरोत् → करिष्यति → करोति

13. पठ् conjugates regularly, but अस्, कृ and श्रु look quite different from it. The deepest reason is that:

(A) they are actually nouns, not verbs (B) they have no present-tense forms at all

(C) they belong to different गण (conjugation classes), which take different stems and endings

(D) they are all class 1 (भ्वादि) like पठ्

14. पठ् is the textbook example because it belongs to the first गण (भ्वादि). Why is that class chosen as the model?

(A) it is the most common class, so its regular pattern teaches the basic shape of conjugation

(B) it is the only class that exists

(C) it is the rarest class, so it is special

(D) class 1 verbs never take person endings

15. A learner conjugates EVERY root exactly like पठ् and writes 'असति' for 'he is'. What grammatical fact did the learner ignore?

(A) that अस् is a noun and cannot take -ति

(B) that different गण classes conjugate differently, so अस् gives अस्ति, not 'असति'

(C) that 'he is' has no Sanskrit form

(D) that पठ् and अस् are the same root

16. कृ ('to do') is famously placed in which गण, the same class noted for stem-changing verbs?

(A) the first (भ्वादि), exactly like पठ्

(B) the tenth, the causative-shaped class

(C) no class — कृ does not conjugate

(D) the eighth (तनादि / स्वादि-type), which alternates a strong and weak stem

17. A verb appears as भाषते. From its ENDING alone, what pada-class is it, and what does that mean for its other forms?

(A) parasmaipada (-ति), so the plural is भाषन्ति

(B) atmanepada (-ते endings), so its whole present row uses -ते/-न्ते-type endings, not -ति

(C) it is past tense, so the present is unmarked

(D) it is first person, so the third person is भाषति

18. Parasmaipada and atmanepada differ in their endings. Which 3rd-PLURAL present pair is correctly matched to its pada-class?

(A) parasmaipada भाषन्ते vs atmanepada पठन्ति

(B) parasmaipada पठन्ति vs atmanepada भाषन्ते

(C) both classes use पठन्ति

(D) both classes use भाषन्ते

19. If a parasmaipada root's 3rd-singular present is X-ति and 3rd-dual is X-तः, what is its 3rd-PLURAL, by the same -ति/-तः/-न्ति pattern (illustrate with पठ्)?

- (A) X-ते, i.e. पठते (B) X-न्ते, i.e. पठन्ते
(C) X-मः, i.e. पठामः (D) X-न्ति, i.e. पठन्ति

20. भाष् is atmanepada. Following the atmanepada 3rd-person pattern -ते / -ते / -न्ते, the 3rd-DUAL of भाष् ('the two speak') is:

- (A) भाषेते (B) भाषतः
(C) भाषन्ते (D) भाषन्ति

21. Two roots have endings -ति (3sg) and -ते (3sg). Which statement about WHERE this difference comes from is correct?

- (A) the speaker picks -ति or -ते depending on politeness
(B) it depends on the time of day the action happens
(C) it is a fixed property of each root (its listed pada-class), not something the speaker chooses freely
(D) it depends on the gender of the subject

22. A root said to be उभयपद would, in the 3rd-singular present, be able to appear as:

- (A) only -ति, never -ते (B) only -ते, never -ति
(C) neither — उभयपद verbs have no present
(D) EITHER -ति OR -ते (it takes both pada-classes)

23. पठति and भाषते are both 3rd-singular present. List ALL the grammatical features in which they DIFFER.

- (A) only the pada-class (parasmaipada vs atmanepada) — and of course the root
(B) tense, number AND person all differ (C) number only
(D) person only

24. Given the parasmaipada present of पठ्, which form is the SECOND-person dual ('you two read'), using the -सि/-थः/-थ row for मध्यमपुरुष?

- (A) पठतः (B) पठथः
(C) पठसि (D) पठथ

25. Sanskrit numbers its persons in REVERSE of English. A grammar book says 'use the प्रथमपुरुष form'. Which English person does it want?

- (A) the third person (he/she/it) (B) the first person (I)
(C) the second person (you) (D) any person — it does not matter

26. करोमि is which पुरुष, and therefore which English person?

- (A) प्रथमपुरुष — English third person ('he does')
(B) मध्यमपुरुष — English second person ('you do')
(C) उत्तमपुरुष — English first person ('I do') (D) प्रथमपुरुष — English first person ('I do')

27. करोषि is the form for which subject?

- (A) सः ('he') — प्रथमपुरुष (B) त्वम् ('you', singular) — मध्यमपुरुष, 'you do'
(C) अहम् ('I') — उत्तमपुरुष (D) ते ('they') — plural

28. A learner translates उत्तमपुरुष as English 'third person' because उत्तम sounds like 'ultimate/last'. Why is this wrong?

- (A) उत्तमपुरुष really is the English third person
(B) उत्तमपुरुष is the English second person (you)
(C) Sanskrit has no first person at all
(D) उत्तमपुरुष is the English FIRST person (I/we); only प्रथमपुरुष maps to English third

29. Identify the person AND number of स्तः (from अस्).

- (A) प्रथमपुरुष singular — 'he is' (B) उत्तमपुरुष plural — 'we are'
(C) मध्यमपुरुष dual — 'you two are'
(D) प्रथमपुरुष (English 3rd person) DUAL — 'the two are'

30. कुर्मः is the form for which subject and number?

- (A) अहम् ('I') — उत्तमपुरुष singular (B) ते ('they') — प्रथमपुरुष plural
(C) वयम् ('we') — उत्तमपुरुष plural, 'we do' (D) आवाम् ('we two') — उत्तमपुरुष dual

31. From the पठ् paradigm, which single form is the 3rd-person DUAL ('the two read')?

- (A) पठन्ति (B) पठथः
(C) पठतः (D) पठावः

32. Complete the first-person row of पठ्: 'I read' = पठामि, 'we two read' = पठावः, 'we (many) read' = ?

- (A) पठन्ति (B) पठथ
(C) पठतः (D) पठामः

33. A sentence reads 'बालकौ ____' meaning 'the two boys read'. The dual subject बालकौ requires which form of पठ्?

- (A) पठति ('he reads') (B) पठतः ('the two read')
(C) पठन्ति ('they [many] read') (D) पठामि ('I read')

34. Which form completes 'छात्राः ____' = 'the students read' (छात्राः is plural, third person)?

- (A) पठतः (B) पठन्ति
(C) पठति (D) पठथ

35. Identify what is WRONG with the sentence 'त्वम् पठामि' ('you read').

- (A) nothing is wrong; it is correct
(B) पठामि is first person ('I'), but त्वम् is second person — it needs पठसि
(C) त्वम् should be third person (D) पठामि should be plural

36. From अस् ('to be'), supply the form for the subject अहम् ('I'): 'I am' = ?

- (A) अस्ति (B) असि
(C) अस्मि (D) सन्ति

37. Which sentence is GRAMMATICALLY correct?

- (A) ते सन्ति ('they are') (B) ते अस्ति ('they are')
(C) अहम् अस्ति ('I am') (D) त्वम् अस्मि ('you are')

38. From असु, the 3rd-DUAL ('the two are') is स्तः and the 3rd-PLURAL ('they all are') is सन्ति. So 'the two boys are' uses:

- (A) सन्ति (B) अस्ति
(C) स्तः (D) स्मः

39. A learner writes 'वयम् अस्ति' for 'we are'. The correct form is:

- (A) वयम् अस्ति (no change needed) (B) वयम् अस्मि
(C) वयम् सन्ति (D) वयम् स्मः ('we are')

40. Identify the person, number and meaning of असि.

- (A) मध्यमपुरुष (English 2nd) singular — 'you (one) are'
(B) प्रथमपुरुष singular — 'he is' (C) उत्तमपुरुष singular — 'I am'
(D) मध्यमपुरुष plural — 'you all are'

41. करोति shows the STRONG stem करो-, while कुर्वन्ति shows the weak stem कुर्व-. Which other form ALSO uses the weak stem?

- (A) करोमि ('I do') (B) करोषि ('you do')
(C) कुर्मः ('we do') (D) करोति ('he does')

42. Supply कृ for आवाम् ('we two'): 'we two do' = ? (first-person dual)

- (A) कुर्मः (B) कुर्वः
(C) करोमि (D) कुरुतः

43. From कृ, the 3rd-person row is करोति / कुरुतः / कुर्वन्ति. So 'the two do' is:

- (A) करोति (B) कुरुतः
(C) कुर्वन्ति (D) कुर्मः

44. Which sentence correctly pairs subject and कृ-form?

- (A) अहम् करोति ('I do') (B) वयम् कुर्मः ('we do')
(C) त्वम् करोमि ('you do') (D) सः कुर्वन्ति ('he does')

45. A pupil writes करति for 'he does'. Why is it wrong?

- (A) कृ has no present tense (B) करति is right; the textbook is mistaken
(C) कृ is an eighth-class root that builds a present stem करो-, giving करोति — not the class-1-style 'करति'
(D) the correct form should be करोमि

46. Identify the person and number of कुर्वन्ति.

- (A) उत्तमपुरुष plural — 'we do' (B) प्रथमपुरुष dual — 'the two do'
(C) मध्यमपुरुष plural — 'you all do'
(D) प्रथमपुरुष (English 3rd person) plural — 'they do'

47. भाष् is atmanepada. Its first-person SINGULAR present ('I speak') is:

- (A) भाषामि (B) भाषति
(C) भाषते (D) भाषे

48. Identify the person and number of भाषन्ते.

- (A) प्रथमपुरुष singular — 'he speaks' (B) प्रथमपुरुष dual — 'the two speak'
(C) प्रथमपुरुष (English 3rd) plural, atmanepada — 'they speak'
(D) उत्तमपुरुष plural — 'we speak'

49. Which sentence correctly uses the atmanepada root भाष्?

- (A) ते भाषन्ति ('they speak') (B) ते भाषन्ते ('they speak')
(C) सः भाषति ('he speaks') (D) अहम् भाषति ('I speak')

50. A learner says: 'Since भाषते ends in -ते, भाष् must be in the past tense.' Correct this.

- (A) -ते is the atmanepada PRESENT ending, not a past marker; भाषते = 'he speaks' (now)
(B) yes, -ते always marks the past
(C) -ते marks the future, so भाषते = 'he will speak'
(D) -ते marks the imperative, so भाषते = 'let him speak'

51. Sanskrit verbs must agree with their subject in:

- (A) case and gender (B) gender and number
(C) person and number (D) case only

52. The sentence 'सः पठन्ति' is wrong. The single fix is:

- (A) change पठन्ति to पठति, because सः ('he') is singular
(B) change सः to ते, because the verb must stay plural
(C) change पठन्ति to पठतः (D) nothing — it is already correct

53. Choose the sentence where subject and verb AGREE in both person and number.

- (A) अहम् पठतः (B) ते पठति
(C) त्वम् पठामि (D) आवाम् पठावः ('we two read')

54. 'यूयम् ____' means 'you all read' (यूयम् = 'you', plural). The correct पठ्-form is:

- (A) पठसि (B) पठथः
(C) पठामः (D) पठथ

55. Which subject correctly takes the verb करोमि?

- (A) सः ('he') (B) वयम् ('we')
(C) अहम् ('I') (D) त्वम् ('you')

56. अकरोत् means 'he did'. What grammatical element is the अ- at its FRONT?

- (A) the negative prefix ('not') (B) a first-person marker
(C) a case ending (D) the past-tense augment of लङ्-लकार

57. Compare the अ- in अकरोत् with the अ- in अधर्मः ('non-righteousness'). They are:

- (A) two different अ-: a past-tense augment in अकरोत्, a negative prefix in अधर्मः
(B) the same negative prefix in both (C) the same past augment in both
(D) both first-person markers

58. Which word's initial अ- is a NEGATIVE prefix rather than a tense augment?

- (A) अधर्मः ('non-righteousness') (B) अकरोत् ('he did')
(C) अपठत् ('he read') (D) अभवत् ('he became')

59. A student corrects a sentence to read 'सः अकरोत्' and translates it 'he does not do'. What is the error in the translation?

- (A) the translation is correct — अ- negates the verb
(B) अकरोत् means 'he will do' (future)
(C) अकरोत् is लङ् past ('he did'); the अ- is a tense augment, so the sentence means 'he did', not a negation
(D) अकरोत् means 'let him do' (command)

60. A student claims: 'लट् is the future tense, and कुर्वन्ति means 'we do'.' The best full correction is:

- (A) लट् is the PRESENT, and कुर्वन्ति means 'they do' ('we do' is कुर्मः)
(B) the student is correct on both points (C) लट् is future, but कुर्वन्ति means 'they do'
(D) लट् is present, but कुर्वन्ति means 'we do'

Solutions — Sanskrit (Class 7), Chapter 15: धातुरूपाणि (Dhatu-Rupani: Verb Conjugations) — Paper 3

Paper 3 — (progressively harder)

Marking: +4 correct, -1 wrong, 0 unattempted. Maximum marks **240**.

Answer Key

Q	Ans	Q	Ans	Q	Ans	Q	Ans	Q	Ans	Q	Ans
1	D	11	C	21	C	31	C	41	C	51	C
2	A	12	B	22	D	32	D	42	B	52	A

10	B	20	A	30	C	40	A	50	A	60	A

Answer-key distribution: A = 15, B = 15, C = 15, D = 15.

Worked Solutions

1. (D) The धातु is the bare verb root पठ् ('to read'); every other form is BUILT from it. पठति is an inflected verb form (3rd-singular present), पठनम् is a derived noun ('reading'), and पठितुम् is the infinitive ('to read'). Only पठ् is the root itself.

2. (A) श्रु means 'to hear/listen', NOT 'to do' — 'to do' is कृ. The other three pairings are all correct: पठ् 'to read', अस् 'to be', भाष् 'to speak'. The trap mixes up श्रु with कृ.

3. (B) गम् ('to go') is a common Sanskrit root but is NOT among the eight tabled here. The appendix lists पठ्, अस्, कृ, श्रु, दा, ज्ञा, क्री, भाष् — so दा, ज्ञा and क्री all belong to the set; गम् does not.

4. (C) भाषते is built only from भाष् ('to speak'); its stem भाष- and -ते ending are specific to that root. ज्ञा ('to know') has a quite different stem and could never yield भाषते. The form is uniquely tied to भाष्, so it cannot come from ज्ञा.

5. (A) A root is the seed for CONJUGATION: from दा and ज्ञा one builds their tense/person forms. Roots are conjugated, not declined like nouns (declension and the seven cases belong to nominals). Counting syllables and 'converting to an adjective' are not what root-knowledge gives.

6. (A) The -ति ending marks 3rd-person singular present in parasmaipada — true of both पठति (from पठ्) and शृणोति (from शृ). They are NOT from the same root (पठ् vs शृ), are present not past, and -ति is third person, never first.

7. (D) लट्-लकार is the PRESENT tense, so पठति = 'he reads', not 'he read'. The imperfect past is लङ् (अपठत्), the future is लृट् (पठिष्यति), and the command/imperative is लोट् (पठतु). The student confused present with past.

8. (D) लट् is the present, लङ् the imperfect past, and लृट् the future — only that row is right. Every distractor swaps at least one pair (e.g. making लट् past or लृट् present), which contradicts the lakara meanings taught.

9. (A) The अ- augment plus the past ending make अपठत् लङ् (imperfect past, 'he read'). The -ष्य- future marker in पठिष्यति makes it लृट् (future, 'he will read'). The forms are not swapped, neither is present, and neither is an imperative.

10. (B) Sanskrit has TEN लकाराः (tense-moods); लट् (present) is only one of them. Seven is the count of NOUN cases, three is the genders, and eight is the tabled roots — none of these is the lakara count.

11. (C) लोट् is the imperative (a command, 'let him do') and विधिलिङ् the optative (advice/possibility, 'he should do'). Present is लट्, past लङ्, future लृट्; and the last option simply reverses the correct pairing.

12. (B) अकरोत् is लङ् (past, 'he did'), करोति is लट् (present, 'he does'), करिष्यति is लृट् (future, 'he will do'). Past-to-future therefore runs अकरोत् → करोति → करिष्यति. Each distractor misplaces at least one form on the timeline.

13. (C) Sanskrit verbs fall into ten गण; पठ् is class 1, but अस्, कृ and शृ sit in other classes whose stem-formation differs (hence अस्ति, करोति, शृणोति). They ARE verbs, they DO have present forms, and they are NOT class 1 like पठ्.

14. (A) भ्वादि (class 1) is the largest, most regular class, making पठ् the natural template (पठति/पठतः/पठन्ति ...). It is not the only class (there are ten), not rare, and class-1 verbs do take the normal person endings.

15. (B) The correct 3rd-singular of अस् is अस्ति (class 2), not the class-1-style 'असति'. The learner wrongly assumed all roots follow पठ्. अस् IS a verb with a present form, and it is a different root from पठ्.

16. (D) कृ is an eighth-class root whose stem alternates strong करो- / weak कुरु-, कुर्व- (करोति vs कुर्वन्ति). It is NOT first-class like पठ् (it would then be 'करति'), not tenth, and it certainly does conjugate.

17. (B) -ते is the atmanepada 3rd-singular marker, so भाष् conjugates भाषते/भाषेते/भाषन्ते — the whole row is atmanepada. It is not parasmaipada (which would give भाषन्ति in the plural — a wrong form here), not past, and -ते is third person not first.

18. (B) Parasmaipada 3rd-plural ends in -न्ति (पठन्ति); atmanepada ends in -न्ते (भाषन्ते). The first distractor swaps the labels, and the last two wrongly force both classes onto a single ending. Only पठन्ति / भाषन्ते is matched correctly.

19. (D) The parasmaipada 3rd-person row is -ति / -तः / -न्ति (singular/dual/plural): पठति, पठतः, पठन्ति. So the plural is पठन्ति. -ते and -न्ते are atmanepada endings (wrong pada), and पठामः is the first-person plural, not third.

20. (A) The atmanepada 3rd-person row is -ते / -ते / -न्ते, giving भाषते (sg), भाषेते (dual), भाषन्ते (pl). So the dual is भाषेते. भाषतः uses the parasmaipada dual ending, भाषन्ते is the plural, and भाषन्ति is a wrong parasmaipada-style plural.

21. (C) Whether a root is parasmaipada (-ति) or atmanepada (-ते) is lexically fixed — listed with the root, like पठ् (P) vs भाष् (A). It is not a free politeness choice, not time-of-day dependent, and Sanskrit VERBS do not vary by gender.

22. (D) उभय means 'both', so an उभयपद root can conjugate in BOTH parasmaipada (-ति) and atmanepada (-ते). Restricting it to only one pada contradicts the term, and it certainly does have present forms.

23. (A) Both are present (same tense), singular (same number), third person (same person). The genuine difference is the pada-class — पठ् is parasmaipada, भाष् atmanepada — plus naturally being different roots. They do not differ in tense, number or person.

24. (B) मध्यमपुरुष (2nd person) parasmaipada present runs -सि / -थः / -थः पठसि (sg), पठथः (dual), पठथ (pl). So 'you two read' is पठथः. पठतः is the THIRD-person dual, पठसि is 2nd singular, and पठथ is 2nd plural.

25. (A) प्रथमपुरुष ('first person' literally) is what English calls the THIRD person (he/she/it). The reversal is the whole trap: do NOT read प्रथम as English 'first' (I) or as 'second' (you), and the choice certainly matters for agreement.

26. (C) The -मि ending marks उत्तमपुरुष singular = English FIRST person, so करोमि = 'I do'. प्रथमपुरुष would be करोति ('he does'), मध्यमपुरुष करोषि ('you do'). The last distractor mislabels the पुरुष even while getting the English right.

27. (B) The -सि ending is मध्यमपुरुष singular = English second person, so करोषि = 'you (one person) do', matching त्वम्. सः 'he' needs करोति, अहम् 'I' needs करोमि, and ते 'they' need कुर्वन्ति.

28. (D) Despite the name, उत्तमपुरुष = English first person (अस्मि 'I am', कुर्मः 'we do'). English THIRD person is प्रथमपुरुष. So उत्तम is neither English third nor second, and Sanskrit certainly HAS a first person.

29. (D) अस् runs अस्ति / स्तः / सन्ति in the third person; स्तः is therefore the 3rd-person DUAL ('the two are'). 'He is' (singular) is अस्ति, 'we are' is स्मः, and 'you two are' is स्थः — none of which is स्तः.

30. (C) उत्तमपुरुष plural of कृ is कुर्मः = 'we do', matching वयम्. 'I do' (singular) is करोमि, 'they do' (3rd plural) is कुर्वन्ति, and 'we two do' (1st dual) is कुर्वः — so कुर्मः is specifically the first-person PLURAL.

31. (C) Third-person parasmaipada present is पठति / पठतः / पठन्ति; the DUAL is पठतः. पठन्ति is the 3rd plural, पठथः is the 2nd-person dual, and पठावः is the 1st-person dual ('we two read').

32. (D) उत्तमपुरुष parasmaipada present is -मि / -वः / -मः. पठामि, पठावः, पठामः. So 'we all read' = पठामः. पठन्ति is 3rd-plural, पठथः is 2nd-plural, and पठतः is 3rd-dual — none is first person.

33. (B) बालकौ is dual ('two boys'), 3rd person, so the verb must be the 3rd-DUAL पठतः. पठति is singular (one reader), पठन्ति is plural (three or more), and पठामि is 1st-singular — none agrees with a dual third-person subject.

34. (B) छात्राः is plural and third person, so it needs the 3rd-PLURAL पठन्ति. पठतः is dual (only two), पठति is singular (one), and पठथः is 2nd-person plural ('you all read') — wrong person.

35. (B) पठामि means 'I read' (उत्तमपुरुष), so it cannot follow त्वम् ('you', मध्यमपुरुष). The right form is पठसि ('you read'). त्वम् is correctly second person, and the error is the verb's PERSON, not its number.

36. (C) उत्तमपुरुष (first-person) singular of अस् is अस्मि = 'I am', so अहम् अस्मि. अस्ति is 'he is' (3rd sg), असि is 'you are' (2nd sg), and सन्ति is 'they are' (3rd pl) — none matches 'I'.

37. (A) ते ('they') is 3rd-plural, taking सन्ति, so ते सन्ति is correct. ते अस्ति wrongly uses the singular for a plural subject; अहम् अस्ति puts a 3rd-person verb with 'I' (should be अस्मि); त्वम् अस्मि puts a 1st-person verb with 'you' (should be असि).

38. (C) 'The two boys are' is dual third person → स्तः. सन्ति is the plural ('they all are'), अस्ति the singular ('he is'), and स्मः the first-person plural ('we are'). Only स्तः fits a dual third-person subject.

39. (D) वयम् ('we') is first-person plural, requiring स्मः. वयम् स्मः. अस्ति is 3rd-singular ('he is') — wrong person and number; अस्मि is 1st-SINGULAR ('I am') — wrong number; सन्ति is 3rd-plural ('they are') — wrong person.

40. (A) असि is the मध्यमपुरुष (second-person) SINGULAR of अस् = 'you are'. 'He is' is अस्ति (प्रथमपुरुष), 'I am' is अस्मि (उत्तमपुरुष), and the 2nd-PLURAL 'you all are' is स्थ — not असि.

41. (C) कृ takes the strong करो- in the singular (करोमि, करोषि, करोति) but the weak कुरु-/कुर्व- elsewhere — including the first-plural कुर्मः. The three distractors are all singular forms that keep the strong करो- stem.

42. (B) First-person dual of कृ is कुर्वः ('we two do'), on the weak stem कुर्व-. कुर्मः is the first-PLURAL ('we all do'), करोमि the first-SINGULAR ('I do'), and कुरुतः the THIRD-person dual ('the two do') — wrong person.

43. (B) Third-person dual of कृ is कुरुतः. करोति is the singular ('he does'), कुर्वन्ति the plural ('they do'), and कुर्मः the first-person plural ('we do') — none is the 3rd-dual.

44. (B) वयम् ('we', 1st plural) takes कुर्मः — correct. अहम् ('I') needs करोमि not करोति; त्वम् ('you') needs करोषि not करोमि; सः ('he', singular) needs करोति not the plural कुर्वन्ति. Only वयम् कुर्मः agrees in person and number.

45. (C) कृ does not conjugate like a class-1 verb; it forms करो- and yields करोति for 'he does'. 'करति' wrongly applies the पठति pattern. कृ certainly has a present, and करोमि means 'I do', not 'he does'.

46. (D) कुर्वन्ति is the 3rd-person PLURAL of कृ = 'they do'. 'We do' (1st pl) is कुर्मः, 'the two do' (3rd dual) is कुरुतः, and 'you all do' (2nd pl) is कुरुथ — so कुर्वन्ति is specifically 3rd plural.

47. (D) Atmanepada first-person singular ends in -एः भाषे ('I speak'). भाषामि uses a parasmaipada-style first-person ending (wrong pada), भाषति is a wrong parasmaipada 3rd-singular, and भाषते is the atmanepada THIRD-singular ('he speaks').

48. (C) Atmanepada 3rd-person row is भाषते / भाषेते / भाषन्ते; भाषन्ते is the PLURAL 'they speak'. The singular is भाषते, the dual भाषेते, and the first-plural 'we speak' is भाषामहे — none of which is भाषन्ते.

49. (B) ते ('they') is 3rd-plural; the atmanepada plural is भाषन्ते, so ते भाषन्ते is right. भाषन्ति and भाषति apply parasmaipada -न्ति/-ति endings to an atmanepada root (wrong pada), and 'I speak' is भाषे, not भाषति.

50. (A) -ते is the atmanepada third-singular PRESENT ending; भाषते = 'he speaks'. Past would need the augment (अभाषत), future the -ष्य- marker, and the imperative is a different ending. The -ते says PADA (atmanepada), not tense.

51. (C) A finite verb agrees with its subject in PERSON and NUMBER (e.g. अहम् करोमि, ते कुर्वन्ति). Case and gender are properties of nouns, not of the agreement a verb shows; so 'case and gender', 'gender and number', and 'case only' are all wrong.

52. (A) सः is 3rd-person SINGULAR, so the verb must be पठति. The cleanest single fix keeps the stated subject ('he') and corrects the verb. Changing सः to ते alters the meaning to 'they', पठतः is dual (two, not one), and the sentence is not already correct.

53. (D) आवाम् ('we two') is 1st-person dual, matching पठावः ('we two read') — full agreement. अहम् needs पठामि (not the 3rd-dual पठतः); ते needs पठन्ति (not the singular पठति); त्वम् needs पठसि (not the 1st-person पठामि).

54. (D) यूयम् is 2nd-person PLURAL, so the verb is पठथ ('you all read'). पठसि is 2nd-singular ('you [one] read'), पठथः is 2nd-dual ('you two read'), and पठामः is 1st-plural ('we read') — wrong person.

55. (C) करोमि is उत्तमपुरुष singular = 'I do', so its subject is अहम्. सः ('he') takes करोति, वयम् ('we') takes कुर्मः, and त्वम् ('you') takes करोषि — only अहम् matches करोमि.

56. (D) लङ् (imperfect past) prefixes an अ- augment to the stem: अ + करोत् = अकरोत् ('he did'). It is NOT the negative prefix अ- (as in अधर्म), not a person marker, and not a case ending (verbs take no case).

57. (A) The verb अकरोत् carries the लङ् PAST AUGMENT अ-; the noun अधर्मः carries the NEGATIVE prefix अ- ('non-'). They look alike but do opposite jobs — one signals past tense, the other negation. Neither is a person marker.

58. (A) अधर्मः is a NOUN whose अ- negates धर्म ('non-righteousness'). अकरोत्, अपठत् and अभवत् are all लङ् PAST verb forms whose अ- is the past-tense augment — so only अधर्मः has the negative prefix.

59. (C) अकरोत् is the imperfect past of कृ = 'he did'; its अ- is the लङ् augment, NOT a negative. So 'he does not do' is wrong. Future would be करिष्यति and the imperative करोतु — neither matches अकरोत् either.

60. (A) Two errors: लट् is the PRESENT (future is लृट्), and कुर्वन्ति is 3rd-PLURAL 'they do' (whereas 'we do' is the first-plural कुर्मः). Only the correction that fixes BOTH is right; each distractor leaves at least one mistake standing.
